

# Behave'n Day Center

Improving children's behavior in a structured treatment center

*"They can't sit still, listen, concentrate or follow direction. Some of these children never catch up, even after years of expensive intervention and special education."\**

*"...some kids by age 4 already have severe problems that make the next 12 years of public education a nightmare for everyone involved."\**

## Something can be done to prevent these problems!

Behave'n Day Center offers programs to help children with behavior problems and their families.

### Primary Goals:

- ◆ Teach children social skills
- ◆ Reduce aggression, temper tantrums and more
- ◆ Increase attentiveness
- ◆ Increase academic readiness
- ◆ Increase self-esteem
- ◆ Enhance parenting skills
- ◆ Improve family relationships

### Program Characteristics

- ◆ Low child-to-staff ratio
- ◆ Masters-level behavioral specialist
- ◆ Licensed Family Therapists
- ◆ Professionally-trained staff
- ◆ Parent support
- ◆ Program evaluation and research
- ◆ Fun, exciting learning experience

**Hours:**  
**M-F 6am-6pm**

\*Jones, R. (1998). "Early childhood education just keeps mattering more." *The American School Board Journal*.

## What parents say:

"Behave'n Day Center welcomed my child and promised to never turn us away. The support and strength I received was incredible. My child started to show signs of improvement within the first week of their treatment. Behave'n had reduced my child's raging so drastically! He has many friends now, he's on a local wrestling team and he's doing exceptionally well in school! He is happy for the first time in his life." K.E.

"It is difficult to describe the frustration and sense of helplessness we felt as we watched our child's outbursts occur more and more frequently and become more severe. Our child improved dramatically in a very short time. Positive changes have been carried over into all areas of our lives. Our child is once again the loving, funny little child that just a few weeks ago we were unsure we would ever see again." L.Y.

"Our son was at Behave'n for 2 days and was a reformed new child. We call it a miracle. He listens, he is very polite, he is confident, and he is fun to be around. We are proud to say he graduated Behave'n in 7 weeks and is currently in Kindergarten and adjusting great. Behave'n Day Center has been so supportive and we are grateful." B.C.

Behave'n Day Center is accredited by the Rehabilitation Accreditation Commission (CARF) for Day Treatment: Family Services (children and adolescents.)

## Objective

Behave'n Day Center is committed to providing early intervention services to children who have severe or chronic behavior problems. The goal of the program is for children to be successful at home, school and in their community. Behave'n Day Center is dedicated to helping each and every child and family to ensure success.

We provide services for children with autism and developmental delays
